

RACK AND CABINET PRODUCT

Standing Colo Server Rack 42U

DESCRIPTION

Focomm series four compartment co-location rack is designed for tenants to share a single rack and maximize the space utilization in data center, computer room or network environment

FEATURE

Separate space

- Divided into four compartment configuration. Two or three separated space are also optional.

Various packaging

- Robust steel frame makes static loading capacity up to 1200kg.

Massive ventilation rate

- Perforations on front and rear door enable optimum airflow up to 78% within the rack.

Opening angle

- Opening angle over 130 degree can be achieved with front door and rear door.

Static loading capacity

- Can be shipped in build-up or flat-packed. Flat packaging saves up to 60% transport cost and warehouse space.

3-digit code lock for each door to keep the security for each user.

Top panel with cable access (brush panel is optional).

Strengthened fixed shelves divide the rack into 4 sections and each shelf is with 80KG static loading capacity.

Divided side panels with single key lock.

The opening angle of front door is over 130 degrees.

Each separated space with a vertical cable manager.
