

RACK AND CABINET PRODUCT

End Plate / End Stop Wired Terminal Block Accessories

DESCRIPTION

End bracket for din rail with screw holder for fixing screws that have been removed. This end stop is moulded in imported PA 66 applied to fitting at each end of the assembled rail.

FEATURE

- High-strength PA66 thermoplastic with excellent thermal and chemical resistance.
- Secure end bracket for DIN rail terminal block mounting.
- Quick, tool-free installation on standard 35 mm DIN rails.
- Compatible with crimp-type terminal systems in industrial automation.
- Acts as a mechanical end stop to prevent module displacement.
- Suitable for various terminal block configurations.
