FEATURES
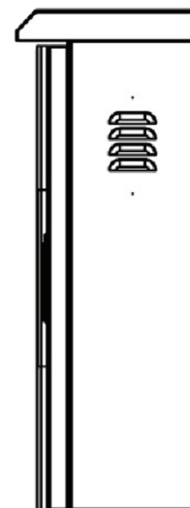

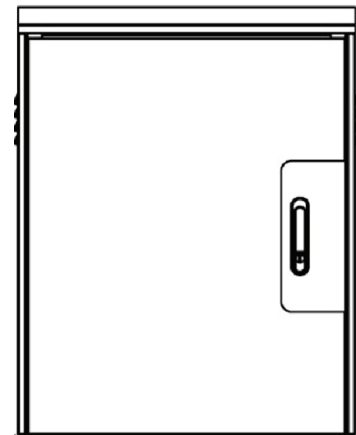

- Designed for outdoor wall-mounted installation. Ideal for surveillance equipment (CCTV), fiber optic distribution, industrial media converters, and Ethernet switches.
- Constructed from electro-galvanized steel, aluminum, or stainless steel with a thickness of 2.0 mm. Corrosion-resistant and lightweight. Includes 2.5 mm^2 green-yellow grounding wire.
- Finished in dark gray electrostatic powder coating for weather durability and professional aesthetic appeal.
- Front door equipped with push-handle lock and flush caps for enhanced security.
- Ventilation fins on both sides promote airflow and prevent moisture accumulation.
- 2.0 mm thick rear support bracket for pole mounting.
- Roof rack supports up to 4 blower fans for internal cooling. Helps extend the lifespan of equipment inside the cabinet.
- Top and side covers feature rubber gaskets and sunshields to prevent water and sunlight ingress.
- Internal mounting plate (1.5 mm thick) is removable and supports DIN rail installations for industrial media converters and Ethernet switches.
- Integrated rainproof roof for enhanced protection.
- IP66-rated for dust and water resistance.
- Equipped with 3 built-in fans with filters.

MODEL : R-OD-D

## SPECIFICATION

Panel

　Material: Electro-galvanized steel, aluminum, or stainless steel

　Thickness : 2.0 mm

Bracket

　Material: Electro-galvanized steel, aluminum, or stainless steel

　Thickness : 2.0 mm

DIMENSION

H × W × D (cm) : 80.0 × 64.0 × 28.4 cm

64.0　　28.4
